Introduction

MW Roofing Ltd is a registered company who specialise in a wide range of roofing work and have been established for over 11 years.

We have become one of the most reputable roofing companies in Rochdale, Manchester and the surrounding areas and have an exceptional reputation for quality work, this has been noticed by a voting panel who observe ratings, reviews and customer feedback and has resulted in MW Roofing Ltd being voted three best business of 2016, 2017, 2018, 2019 and 2020 of which we are extremely proud of.

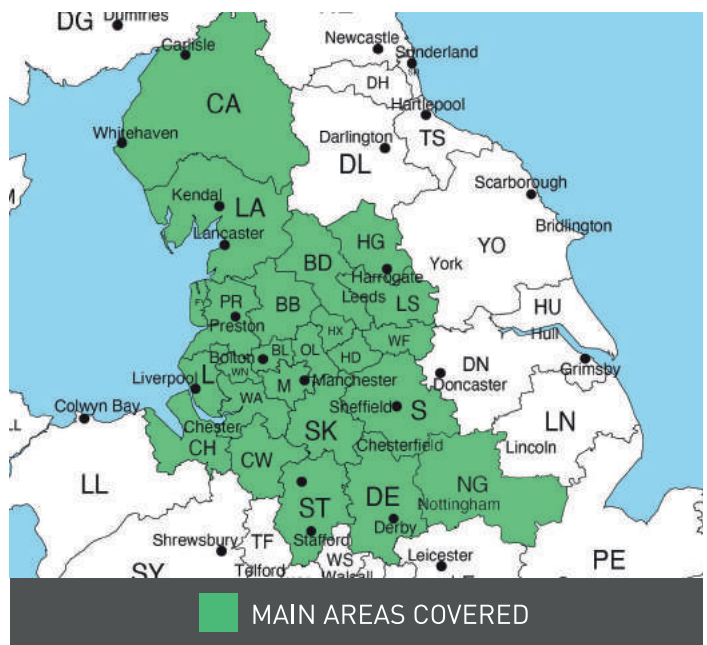

We have 8 teams with 16 roofers in total. All our roofers have different valuable qualities that benefit our clients. We have our own qualified site supervisors to ensure all work is carried out safely and in the correct manor.

Also, with First aiders and CSCS card holders if any accidents or injury occur there is someone at hand who is competent to help with the situation correctly.

All our work comes with a written guarantee and insurance backed guarantees are available on request. We are also registered with the Lead sheet association and the confederation of roofing contractors. To be part of these organisation's we must be on site assessed and passed by the roofing examiners.

This gives our clients peace of mind that the work is going to be carried out by a trustworthy and professional company.

- Fully trained operatives capable of all aspects of roofing work
- Fully Insured
- CHAS Registered
- CORC Registered
- A fully functioning office, with three main staff at the heart of our company
- Company owned access equipment tools to avoid hire costs

We provide a 24/7 reactive call out service to both our domestic and commercial clients, covering areas from the top of Carlisle to the bottom of Wales.

Our management teams will also be contactable 7 days a week, and are available to address any day-to-day issues or concerns.

WORKMANSHIP

24HR RESPONSE

COMMUNICATION

Services

Working in teams of two, all operatives have a general knowledge of all aspects of roofing and are set in teams specialising in their strengths. Below are some of the different types of roofing work we are able to carry out.

PITCHED ROOFS INCLUDING

Slate, tile and stone work.

FLAT ROOFS INCLUDING

EPDM and Liquid Polyurethane systems.

LEAD WORK

Inclusive of lead welding, all approved installers as per the LSA.

ROOFLINE

Fascias, soffits and guttering in either UPVC or timber.

REMEDIAL WORKS

Chimneys, rooflights, pointing, dry verge and ridge systems.

REACTIVE WORKS

General maintenance and emergency call-outs.

Roofing Services

Pitched Roofs

Roof Slating

Our slate roof tiles preserve the classic feel of a traditional home while also providing a sturdy and long-lasting roof option. The finished result is a natural aesthetic that will likely last over a century.

We carry out all aspects of roof slating including:

- Spanish
- Welsh

Roof Tiling

Our versatile roof tiles come in a variety of colours to perfectly match the exterior of modern homes. Roof tiles are very hard-wearing and will provide superb protection against rot and insect damage.

We carry out all aspects of roof tiling including:

- Clay roof tiles
- Concrete roof tiles
- Reclaimed roof tiles
- Interlocking roof tiles
- Pantiles

Stone Roofing

When it comes to durability, Yorkshire stone roof slates stand out from the competition. They are fireproof and weather-proof, and for that reason, Yorkstone roof slates are one of the most sustainable roofing materials available.

Yorkstone is considered a premium material, and is often the slate of choice for farmhouses, barn conversions and extensions.

Flat Roofs

EPDM Rubber

Firestone RubberCover EPDM is a high-performance roofing system for residential flat roofing applications.

Based on an EPDM synthetic rubber membrane with a life expectancy of over 50 years, it is one of the most durable and sustainable roofing systems on the market.

S-Flex LQ Liquid

This cold-applied roofing solution is virtually odourless and completely solvent free. It offers a seamless system that is ideal when a roof has lots of difficult sections – handrails, air conditioning units etc that would prevent alternative materials being suitable. The same liquid can be used for upstands.

S-Flex LQ can be used in both new and refurbishment projects, either to overlay existing material or as a lasting new roof solution, with long warranties available.

Fibreglass GRP Roofing

Cure It is a revolutionary GRP flat roofing waterproofing system. A Cure It roof is made with specially formulated roofing resin and topcoat.

This has been designed for roofing applications by the UK's leading GRP flat roofing materials manufacturer and is supplied with a 20 year materials guarantee.

Roofing Services

Remedial Works

We carry out all aspects of roof remedials including:

- Replacing broken or slipped tiles & slates
- Flat roof repairs for EPDM, lead, etc.
- Finding leaks & re-sealing or renewing flashings
- Renewing old pointing, brickwork or flaunching
- Clearing or repairing guttering & downpipes
- Roof inspection surveys, including drone surveys
- Installing new fascia, soffits & barge boards
- Replacing entire roof coverings

Lead Works

Lead roofing is a popular choice for homes and company builds and fits in with a range of roofing styles, such as flat, domed and slanted. Lead can be incorporated into your existing structure, or used alone to create an impressive and durable roof.

We carry out all aspects of lead roofing including:

- Flat roofs
- Chimney flashings
- Gutter lining
- Lead slates

Drone Service

Using a drone to perform preliminary inspections makes our work safer for our personnel and more efficient for our customers. Delivering a safe programmed flight path, our specialists can systematically review, highlight and question all key aspects of the building and roof structure in a controlled environment.

With recording equipment installed on each drone, we can generate a full report with HD video and high resolution photographic records of the inspection. We can view the condition of your roof remotely, take precise measurements and report back to you on the current condition and any remedial works needed.

Customer Feedback

Just completed a new full roof replacement plus a flat roof to pitch roof conversion on the porch and a replacement flat roof for our garage. Mark's team did a great job despite having to work around the recent very bad weather. His guys are all very helpful and professional in all that they did and we have no hesitation in recommending MW to do a first rate job. We are very pleased with the end result. His longer lead times are a good reflection of how busy he is due to the quality of his work.

- Peter H

My job was relatively small but MW responded quickly with excellent quality work. I would recommend them to other people.

- Andrew B

Recently carried out our flat roof replacement, very well priced, the lads were very helpful and understanding and overcome any issues arising without fuss, advised on any changes as the job progressed and left the site immaculate considering how much old roof came off! Even repaired a few spots on our chimney (FOC) whilst they were up there that they had spotted a potential problem with. Would use again for sure, but hopefully wont need to looking at the quality of the work! recommended 5 stars.

- Paul T

Thanks to all the staff at MW Roofing Ltd for competing our full new roof. All the lads are so knowledgeable and are very thorough in all areas of the job. Very happy customer and would use this company again if needed. Highly recommended. Thanks again.

- Juliette B

MW Roofing have just completed a full re-roof of our house and have done a fantastic job. They're busy, so we had to wait a while but this is a sign of the quality of their work and the demand they're in. Mark kept us updated about when they would be starting the work and the lads arrived on time. They worked unbelievably hard in hot weather to get the roof on before forecast storms and we have had some pretty torrential rain since, with no leaks! The three lads who completed the work did so to an extremely high standard and made sure to leave the site clean and tidy. I have used MW roofing a number of times over the years for repair jobs, as well as full re-roofs on two houses and I would have no hesitation in recommending them to anyone. I will definitely use them again on future projects!

- Dave F

Really pleased with our new roof it looks great. Work carried out thoroughly and efficiently. Thanks to all concerned.

- Cate W

I can highly recommend MW Roofing. I have had a full slate re-roof done along with some repairs to my chimney and a small slate roof put over my bay window. I'm extremely satisfied with the job that has been done and how clean and tidy things have been left, it been a thoroughly professional job from start to finish.

- Richard J

Excellent service provided by MW Roofing. Friendly professional staff with an excellent standard of work carried out. I would happily recommend and use again.

- Anthony T

Training and Health & Safety

Health and Safety

All of our engineers attend training to keep up to date with Health and Safety regulations. These include Asbestos Awareness, working at heights, PASMA and IPAF.

We are continually upskilling our operatives to maintain a high standard of Health and Safety on site.

Site specific RAMS/COSHH assessments can be provided for each project we work on.

Training

We have a rolling commitment in place with Master Roofers Training Academy, to ensure a high standard of workmanship is achieved continuously.
